With this project, VDOT proposes to construct a restricted crossing U-turn (RCUT) intersection with two turn-lane improvements. This project will increase safety and efficiency of travel through the intersection of Route 29 and Route 718 (Mountain Run Lake Road).

Do you support this project?

YES NO

Yes, with modifications (please describe the modifications)

During construction in spring/summer 2017, VDOT plans to close the crossover at Route 29 and Route 718, prohibiting left turns onto and out of Route 718. Additional lane closures may occur on Route 29 as needed to accommodate the work. How might these temporary restrictions affect your travel patterns?

Please provide us with any additional information that you believe will assist VDOT in developing the final design of this project.
