Intersection Improvements at Huguenot Springs Road, Huguenot Trail and Woolridge Road in Powhatan County

Why are we doing this project?

The primary purpose of this project is to improve safety and traffic operations at the intersection.

The project will reconstruct Huguenot Trail (Rt. 711) 0.3 miles west of VA Rt. 288 and realign and combine Huguenot Springs Road (Rt. 607) and Woolridge Road (Rt. 721) to form a new intersection with Huguenot Trail. The project design will add a westbound left turn lane to Huguenot Trail

This improvement will reconfigure the intersection to form a T-intersection and add a westbound left turn lane on

Huguenot Trail (Rt. 711).

When will the project be constructed?

Based on the current schedule, construction is expected to begin in spring 2022 and wrap up in 2024.

How much will the project cost?

The total project cost is approximately \$3.6 million. This includes the estimated price for design, right of way acquisition and construction.
