Welcome to the Virginia Department of Transportation’s (VDOT) public hearing on proposed bridge rehabilitation of the I-64 on-ramp bridge over I-95 from Laburnum Avenue in the City of Richmond.

This public hearing is held to provide an opportunity for citizens or organizations to give VDOT comments and/or suggestions on the proposed project. VDOT strives to ensure that all members of the community have the opportunity to participate in public decisions on transportation projects and programs affecting them. VDOT representatives are present to discuss the project and answer your questions.

A comment sheet is included in the handouts for this meeting and your input is encouraged. All oral and written comments received on this project will be included in a transcript for review by VDOT personnel, citizens and other interested parties.

Project Overview

Total Estimated Cost – $4.05 million
Purpose – Rehabilitate the existing bridge to extend the service life
Location – I-64 on-ramp bridge over I-95 near Laburnum Avenue in the City of Richmond
Limits – .22 miles

Comments can also be submitted in writing to Evan.Roberts@vdot.virginia.gov. Information must be postmarked, e-mailed or delivered to VDOT within 10 calendar days of today’s meeting (April 11, 2020) in order to be included in the public hearing record.

Public Meeting

Get Involved

The public comment period will close 10 days after this public hearing (April 11, 2020). VDOT representatives will review and evaluate any information received as a result of the public hearing.

Project information shared here is available for review after the public hearing at VDOT’s Richmond District Office located at 2430 Pine Forest Drive, Colonial Heights, VA 23834.

Public Meeting

Welcome to the Virginia Department of Transportation’s (VDOT) public hearing on proposed bridge rehabilitation of the I-64 on-ramp bridge over I-95 from Laburnum Avenue in the City of Richmond.

This public hearing is held to provide an opportunity for citizens or organizations to give VDOT comments and/or suggestions on the proposed project. VDOT strives to ensure that all members of the community have the opportunity to participate in public decisions on transportation projects and programs affecting them. VDOT representatives are present to discuss the project and answer your questions.

A comment sheet is included in the handouts for this meeting and your input is encouraged. All oral and written comments received on this project will be included in a transcript for review by VDOT personnel, citizens and other interested parties.
Representatives from VDOT are present to discuss the project and answer your questions. It is the responsibility of VDOT to ensure that all members of the community are afforded the opportunity to participate in public decisions on transportation systems and projects affecting them. VDOT ensures nondiscrimination in all programs and activities in accordance with Title VI of the Civil Rights Act of 1964.

As the design is developed, VDOT will determine what right of way and easements will be needed to accommodate the construction. Concept right of way and easement information will be available at the public meeting. Additional easements not shown on plans may be required for utility relocation. The property owners will be notified of the exact location of the right of way and easements needed during the right of way acquisition process and prior to construction.

Information about right of way purchase is discussed in VDOT’s brochure, “Right of Way and Utilities: a Guide for Property Owners and Tenants.” Copies of this brochure are available here from a VDOT right of way agent.

**Ramp Detour - Laburnum Avenue Ramp over I-95**

**Legend**

- **Existing Signal Along Detour Route**
- **Eastbound Laburnum Ave.**
- **Westbound Laburnum Ave.**
- **Ramp Closure**

**Total cost:** $4.05 million
**Engineering of roadway plans:** $500,000
**Right of way acquisition and utility relocation:** $0
**Construction:** $3.55 million

This cost is subject to change as design progresses.

**Environmental Review**

VDOT’s Richmond District Environmental Office has performed environmental reviews to obtain information about environmental resources in the project vicinity; to provide natural and historic resource agencies an opportunity to review and comment on the project during its development, and to identify opportunities for avoidance, minimization and mitigation of potential environmental impacts.

The project will continue to be coordinated with the appropriate federal, state and local agencies as part of the environmental review and approval processes required throughout project development and construction. All required environmental clearances and permits will be obtained prior to commencement of construction. Strict compliance with all environmental conditions and commitments resulting from regulatory approvals, and implementation of VDOT’s specifications and standard best practices will protect the environment during construction.

Representatives from VDOT’s Environmental Section are available to answer questions.

**Anticipated Schedule**

- **Design approval:** June 2020
- **Begin construction:** August 2021
- **Estimated completion:** April 2022

**Estimated Project Cost**

- **Total cost:** $4.05 million
- **Engineering of roadway plans:** $500,000
- **Right of way acquisition and utility relocation:** $0
- **Construction:** $3.55 million

This cost is subject to change as design progresses.

**Civil Rights**

Representatives from VDOT are present to discuss the project and answer your questions. It is the responsibility of VDOT to ensure that all members of the community are afforded the opportunity to participate in public decisions on transportation systems and projects affecting them. VDOT ensures nondiscrimination in all programs and activities in accordance with Title VI of the Civil Rights Act of 1964.

**Right of Way**

As the design is developed, VDOT will determine what right of way and easements will be needed to accommodate the construction. Concept right of way and easement information will be available at the public meeting. Additional easements not shown on plans may be required for utility relocation. The property owners will be notified of the exact location of the right of way and easements needed during the right of way acquisition process and prior to construction.

Information about right of way purchase is discussed in VDOT’s brochure, “Right of Way and Utilities: a Guide for Property Owners and Tenants.” Copies of this brochure are available here from a VDOT right of way agent.

**Project Description**

The primary purpose of this project is to rehabilitate the I-64 on-ramp bridge over I-95 from Laburnum Avenue in Richmond. The project includes joint replacement; deck repair; structural steel repairs; bearing rehabilitation; concrete substructure surface repairs; concrete color coating on the bridge rail; and painting of girder ends. The project will require a detour during the entire duration of construction. The ramp to Laburnum Avenue will be closed in order to repair the bridge. Further, lane closures and reduction on I-95 northbound (below the bridge) are required intermittently.
