Design Public Hearing

Broad Street Rd./Cross County Rd. Roundabout Louisa County

Tuesday, July 24, 2018, 5-7 p.m.
Holly Grove Volunteer Fire Department
143 Factory Mill Road
Bumpass, VA 23024

Public Meeting

Welcome to the Virginia Department of Transportation's (VDOT) design public hearing on proposed improvements at the Broad Street Road (Route 250)/Cross County Road (Route 522) intersection in Louisa County.

This public hearing is held to provide an opportunity for citizens or organizations to give VDOT comments and/or suggestions on the proposed project. VDOT strives to ensure that all members of the community have the opportunity to participate in public decisions on transportation projects and programs affecting them.

VDOT representatives are present to discuss the project and answer your questions.

A comment sheet is included in the handouts for this meeting, and your input is encouraged. All oral and written comments received on this project will be included in a transcript for review by VDOT personnel, citizens and other interested parties.

Project Overview

Existing intersection at Route 250 and Route 522 in Louisa

Total Cost – \$2.6 million

Purpose – To improve safety and operations

Location – Broad Street Road (Route 250) and Cross County Road (Route 522) intersection

Total Length – 0.1348 mi.

Improvements – Construct a single-lane roundabout with lighting and landscaping

Project Description

The primary purpose of this project is to improve operations and safety at the Broad Street Road (Route 250) and Cross County Road (Route 522) intersection.

Proposed improvements include constructing a single-lane roundabout at the intersection.

Project Graphic

Estimated Project Cost

Total cost:

\$2.6 million

Engineering of roadway plans:

\$648,000

Right of way acquisition and utility relocation:

\$367,000

Construction:

\$1.6 million

This cost is subject to change as design progresses.

Environmental Review

VDOT's Richmond District Environmental Office has performed environmental reviews and coordination to obtain information about environmental resources in the project vicinity; to provide the natural and historic resource agencies an opportunity to review and comment on the project during its development; and to identify opportunities for avoidance, minimization and mitigation of potential environmental impacts.

The project will continue to be coordinated with appropriate federal, state, and local agencies as part of various environmental review processes including the National Environmental Policy Act (NEPA). A NEPA document (Categorical Exclusion) will be prepared for this project in cooperation with the Federal Highway Administration and in accordance with federal guidelines. The NEPA document will include information from various technical reviews including those related to natural resources, water quality, threatened and endangered species, air quality, noise, etc. Also, in compliance with the National Historic Preservation Act, Section 106 and 36 CFR Part 800, information concerning the potential effects of the proposed project on properties listed in or eligible for listing in the National Register of Historic Places will be provided in the project's environmental documentation.

All required environmental clearances and permits will be obtained prior to commencement of construction. Strict compliance with all environmental conditions and commitments resulting from regulatory approvals, and implementation of VDOT's specifications and standard best management practices will protect the environment during construction.

Anticipated Schedule

The following schedule is proposed:

Design approval – Fall 2018

Begin right of way acquisition – Winter 2018

Begin construction – Fall 2021

Estimated completion – Summer 2022

Civil Rights

Representatives from VDOT are present to discuss the project and answer your questions. It is the responsibility of VDOT to ensure that all members of the community are afforded the opportunity to participate in public decisions on transportation systems and projects affecting them. VDOT ensures nondiscrimination in all programs and activities in accordance with Title VI of the Civil Rights Act of 1964.

Right of Way

As the design is developed, VDOT will determine what right of way and easements will be needed to accommodate the construction. The right of way and easement information will be available at the public meeting. The property owners will be notified of the exact location of the right of way and easements needed during the right of way acquisition process and prior to construction.

Information about right of way purchase is discussed in VDOT's brochure, "Right of Way and Utilities: a Guide for Property Owners and Tenants." Copies of this brochure are available here from a VDOT right of way agent.
