

Old Buckingham Rd./Rt. 13 Bridge Replacement *Powhatan County*

Why are we doing this project?

The project will replace the existing 97-year-old bridge with a structure that will accommodate future traffic volumes and improve safety.

What is the location of the project?

The bridge is located on Old Buckingham Rd./Rt. 13 over Sallee Creek in Powhatan County.

What traffic impacts are expected?

A detour will be in place for approximately four months during construction. A temporary school bus turnaround will also be available during construction.

When will the project be constructed?

Following right of way acquisition in 2018, construction is expected to begin summer 2019 and will last approximately four months.

How much will the project cost?

The total project cost estimate is \$2.05 million. This includes the estimated price for design, right of way acquisition, utility relocation and construction.
