NEW TRAFFIC PATTERN AND TEMPORARY STOPPAGES SCHEDULED ON SEGMENT II OF I-64 WIDENING PROJECT

Motorists are advised to stay alert to new traffic shift, overnight traffic stoppages and closures this week

YORK COUNTY—Traffic shifts on Interstate 64 will begin this spring supporting construction of the second segment of the I-64 Widening Project. The shifts will move traffic left from the two existing concrete travel lanes onto the new travel lanes in the median to allow for the full reconstruction of the outside lanes. The first scheduled traffic shift will take place on I-64 east, starting from the western limits of the project near Route 199 (exit 242) to the Burma Road bridge (mile marker 245) starting the morning of Sunday, April 29.

In addition to the new traffic pattern this week, temporary traffic stoppages, lasting up to 20 minutes, are scheduled overnight on:

- Thursday, April 26
 - I-64 west near Burma Road (mile marker 245), between 9 p.m. and 5 a.m. the following morning
- Saturday, April 28
 - I-64 east on and off-ramps at Route 199 (exit 242A/242B), between 11 p.m. and 9 a.m. the following morning
 - I-64 east on-ramp from Route 60, between 11 p.m. and 9 a.m. the following morning

To complete the traffic shift operations, there will be full ramp closures with signed detours in place, starting at 11 p.m. on Saturday, April 28 until 9 a.m. on Sunday, April 29 on the following ramps:

- I-64 east off-ramp to Route 60 Busch Gardens (exit 243A)
- I-64 east off-ramp to Route 143 west (exit 243B)

Single-lane closures will also be in place as follows:

- I-64 west from Colonial Parkway to Penniman Road on Friday, April 27, from 9 p.m. to 6 a.m. the following morning.
- I-64 east on Saturday, April 28 between:

- Colonial Parkway to Route 199 (exit 242A), from 9 p.m. to 9 a.m.
- Route 199 (exit 242A) to Route 60 (exit 243A), from 10 p.m. to 9 a.m.
- Route 60 (exit 243A) to Route 238 Lee Hall (exit 247), from 11 p.m. to 9 a.m.

Motorists are advised to obey the reduced 55 mph speed limit and drive with caution when traveling in the construction area.

All project work and scheduled closures are dependent upon weather conditions.
