## FRANKLIN STREET INTERCHANGE WORK ONGOING IN RICHMOND

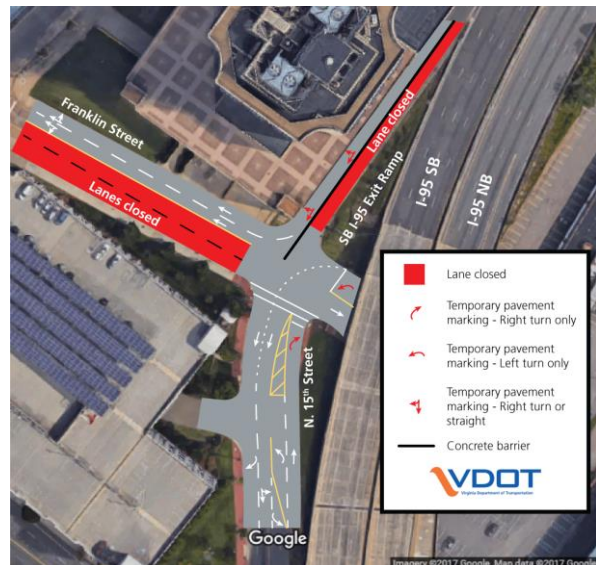

*Ramp narrowed to one lane*

**SOUTH CHESTERFIELD** – Widening of the I-95 South/E. Franklin Street interchange (Exit 74B) is ongoing in the City of Richmond.

One lane of the ramp remains closed until the project's expected completion in summer 2019.

The following traffic patterns will be in place throughout the life of the project:

- E. Franklin Street eastbound will be closed between 14th Street and 15th Street.
- Motorists heading north on 15th Street will only be allowed to turn right on E. Franklin Street.
- Motorists heading south on 15th Street will not be allowed to turn left to E. Franklin St. into Main Street Station and will be detoured to E. Main St.
- Motorists leaving Main Street Station and heading west on E. Franklin Street will only be allowed to turn left on 15th Street.

While the work is underway, drivers should expect significant traffic impacts, especially during the morning rush hour. To avoid delays, drivers are encouraged to use alternate routes.

Once completed, the \$2.3 million project will widen the ramp from two to three lanes to improve safety and alleviate congestion.
