CHESTERFIELD – Dominion Energy has scheduled a series of slow rolls on Route 288 in Chesterfield County to facilitate electric wire pulling work. Drivers should expect the following delays in 15-minute windows with 30-minute lifts in between to allow normal traffic flow:

- On Route 288 north and south between I-95 and Chester Road, slow rolls will be in place between 9-11 a.m. and 1-3 p.m. from Monday, March 16 to Monday, March 23. **Drivers should expect delays on I-95 north and south, as the slow rolls may require brief closures of Exit 62 to Route 288 north and south.**
- On Route 1 (Jefferson Davis Highway) north and south at the Route 288 interchange, slow rolls will be in place between 9-11 a.m. and 1-3 p.m. from Monday, March 16 to Monday, March 23.

The goal of the project is to replace the wires to meet current electrical and safety standards.

Anyone with questions about the project can contact Dominion Energy at powerline@dominionenergy.com or 888-291-0190.

VDOT’s customer service center is also available any time by calling 800-FOR-ROAD (800-367-7623).
