Route 340 (Lord Fairfax Highway)

Estimated Cost: $2,000,000

Estimated Ad Date: Spring 2023

Project Manager: Steve Damron, 540-332-7389

This project improves the connection of Route 340 in Clarke County Virginia with Route 340 at the West Virginia state line. The project includes widen the portion of Route 340 that is a two-lane facility to a four-lane divided highway in conjunction with the widening of Route 340 in West Virginia.

Route 761 (Old Charles Town Road)

Estimated Cost: $4,356,227

Estimated Ad Date: Fall 2020

Project Manager: Keith Harrop, P.E., 540-32-9190

This project will replace the single-lane low-water bridge and approaches over Opequan Creek on Route 761 (Old Charles Town Road). The existing bridge is located at the border between Clarke and Frederick counties and is approximately six miles northwest of the City of Winchester.

The current Route 761 single lane bridge alignment and approaches provide drivers limited sight distance from either direction. The new bridge will have two 11-foot travel lanes. The project will include guardrail on the bridge approaches and parapet railings on the bridge.

The new bridge alignment is currently under design with a final location to be selected after citizen input during the project public involvement stage.
