Subject: RE: FFY10 STIP Amd #2

Information regarding FY 2010 STIP amendment #2, transmitted via e-mail on November 19, 2009, has been reviewed. The request included the transmittal letter from the Secretary and supporting documentation of MPO coordination. The amendment involves ten FHWA-administered ARRA projects that are being added to the following project groupings in the Hampton Roads area: Safety/ITS/Operational Improvement; Transportation Enhancement/Byway; and Preventive Maintenance and System Preservation. None of the projects will be jointly administered by FHWA and FTA.

All of the projects being added to the project groupings are not considered regionally significant and as such do not affect the regional conformity analysis for the maintenance area; accordingly, the MPO has taken appropriate action to modify its TIP. Finally, the STIP amendment demonstrates fiscal constraint and will not affect the FHWA/FTA Planning Finding dated September 22, 2008; accordingly, the planning finding remains valid.

Based on the foregoing, STIP amendment FY10-02 is approved today, November 20, 2009.

Ed Sundra
