Registration Process

Online Registration
Enrollment and payment for all personnel in the Materials Certification Schools may be done online through the VDOT University Virtual Campus: MasterCard, Visa, Check, or Money Order only. Non-VDOT personnel may access the Virtual Campus through this link: https://virtualcampus.vdot.virginia.gov/external

Traditional Registration
Enrollment may be done by calling (804) 328-3158.

The registration fee is $200.00 for each class. Make checks or money orders payable to: Treasurer of Virginia.

STUDENTS MUST GIVE 4 BUSINESS DAYS NOTICE TO BE ELIGIBLE FOR FEE REFUND.

Please call (804) 328-3158 or e-mail MaterialsCertification@vdot.virginia.gov with any questions.

RECERTIFICATION
Anyone recertifying must enroll through the Virtual Campus in the recertification course and complete all modules. The online courses will be available in the Virtual Campus beginning January 1, 2013 at: https://virtualcampus.vdot.virginia.gov/external

Some recertification courses have a proficiency test requirement. Proficiency tests are scheduled through the Central Office MCS Training Section.

The 2013 recertification requirements must be completed between January 1 and Dec. 31, 2013.

MISCELLANEOUS NOTES
A valid Photo ID must be presented to take all examinations. Guidelines for the Materials Certification Schools Program are found in Section 115 of the Materials Division's Manual of Instructions. Current revisions to this section may be found at: http://www.virginiadot.org/business/resources/Materials/MCS_Program_Guidelines.pdf

VDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact your district Civil Rights Manager or the Title VI Specialist at Central Office (804) 786-2085 (or TTY 711).

These certification courses are not introductory programs. It is advised that applicants have some knowledge of road or bridge construction practices. Applicants must have basic reading comprehension skills as well as knowledge of basic math skills including algebra, calculation of percentages and statistics.
Certification Schools

Aggregate Properties
Prerequisite: Central Mix Aggregate Plant Certification
Certification in this field requires attendance in the Asphalt Plant Mix Design School.
Course topics: SuperPave and Stone Matrix Asphalt mix design; materials selection, test methods, and specifications. The class is a combination of classroom and lab instruction. Calculator and safety shoes required.
Students must pass a proficiency examination to be certified.

Asphalt Field - Level I
Course topics: Introduction to Hot Mix Asphalt placement, compaction, joints. Intended audience are field personnel that have an impact on quality of asphalt mix placement. Class is suggested for Roller Operators, Paver Operators, Crew Foremen, Superintendents, Density Technicians, Construction Inspectors, Senior Construction Inspectors, Consultant Construction Inspectors, Senior Consultant Construction Inspectors and Materials IA & QA personnel and Permit Inspectors.
Exam required for certification. No proficiency required.
COURSE IS A PREREQUISITE FOR ASPHALT FIELD LEVEL II

Asphalt Field - Level II
Prerequisite: Asphalt Field School - Level 1
Course topics: Specifications and QC/QA testing. Intended audience are those plant personnel that have an impact on quality of asphalt mix produced and will be performing sampling and testing for acceptance; as well as Materials QA personnel and Materials Lab testing personnel. The class will be mandatory for the Paving Superintendents and Density technicians. Calculator required.
Exam required for certification. Proficiency will be required of the Density Technician. This proficiency will be administered by VDOT as part of IA system based program.
There will be a specification required for Contractor Superintendent and Density Technician to be certified. Consultant Inspectors will be required to have certification by contract.

Asphalt Plant - Level I
Course topics: Introduction to components of asphalt, plant operations, sampling, aggregate proportioning, job mix formulas. Intended audience are plant personnel that have an impact on quality of asphalt mix produced and Materials QA personnel. Class is suggested for loader operators, plant operators and ground crew. Class is mandatory for any plant person that will perform sampling.
Exam required for certification. Proficiency determined by Contractor's designated Mix Design person. This certification will be required by specification for sampling.
COURSE IS A PREREQUISITE FOR ASPHALT PLANT LEVEL II

Asphalt Plant - Level II
Prerequisite: Asphalt Plant School - Level 1
Course topics: Specifications and QC/QA testing. Intended audience are those plant personnel that have an impact on quality of asphalt mix produced and will be performing sampling and testing for acceptance.
Exam required for certification. Proficiency determined by Contractor's designated Mix Design person. This certification will be required for contractor personnel performing sampling and testing for acceptance.
COURSE IS A PREREQUISITE FOR ASPHALT PLANT MIX DESIGN

(Certification Schools continued on next page)
Asphalt Plant Mix Design
Prerequisite: Asphalt Plant School - Level 2
Course topics: SuperPave and Stone Matrix Asphalt mix design; materials selection, test methods and specifications. The class is a combination of classroom and lab instruction. Intended audience are plant lab personnel responsible for control of asphalt mix and laboratory testing at the plant. Class is suggested for experienced plant person with several years of experience. This person will be responsible for asphalt mixture, testing, sampling and certifying lab results to VDOT. This person will also sign off on technicians with level 2 certification. VDOT Materials QA personnel, Materials asphalt lab supervisor and Materials person responsible for mix design approval should attend. Calculator and safety shoes required.
Exam required for certification. Proficiency will initially be performed by VDOT; then recertification can be done by Contractor’s designated Mix Design person.
There will be a specification required for contractor personnel responsible for mix design submittals and control of asphalt mixtures produced for VDOT.

Central Mix Aggregate Plant
Topics include: testing of aggregates, job mixes, specifications, production sampling and stockpiling, automated data processing forms, pay quantities, titration, Quality Assurance, and Modified Acceptance Programs. Class includes 1/2 day of lab. Calculator and safety shoes required.
Students must pass a proficiency examination to be certified.

Concrete Plant
Instruction will cover: components of concrete, ACI Concrete Mix Design, moisture content and batch weight calculations, requirements for inspection of plant and equipment, responsibilities of producer's Quality Control Technician and VDOT Monitor, automated data processing. Calculator Required.

Concrete Field
Subject matter includes components of concrete, field inspection and repair of hydraulic cement concrete structures, responsibilities of contractor's technician and VDOT inspector, automated data processing and specifications.
Students must obtain an ACI Field Level I Certification to be certified.
For more information on ACI, go to the VRMCA web site at http://www.vrmca.com/ac/i/

Pavement Marking
This course involves classroom instruction regarding layout and pre-marking, materials, application, quality control testing, visual inspection and troubleshooting of pavement markings and markers.
Students must pass a proficiency examination to be certified.

Slurry Surfacing
Course topics: Materials, equipment, proper placement procedures, specifications. 1/2 day class.

Soils & Aggregate Compaction
Course instruction covers nuclear density testing, sand cone testing, one-point proctor and “Speedy” moisture. Also covered are construction and testing of embankments and subgrade, pipe installation, roller patterns and reports. Calculator required.
Students must pass a proficiency examination to be certified. A valid Nuclear Safety Certification is required for this proficiency examination.

Surface Treatment
Course topics: Materials, equipment, proper placement procedures, specifications. 1/2 day class. Calculator required.

Certifications are intended for personnel performing materials acceptance sampling/testing or those required by VDOT specification to be certified.
Class attendance for general knowledge is permitted.
2013 Schedule

**Asphalt Plant Level I School**
- CO Materials
  - Exam last day
- 3/5 - 3/6/2013

**Asphalt Plant Level II School**
- CO Materials
  - Exam last day
- 3/6 - 3/8/2013

**Asphalt Mix Design School**
- CO Materials
  - Exam last day
- 2/5 - 2/8/2013

**Aggregate Properties School**
- CO Materials
  - Exam last day
- 2/5 - 2/8/2013

**Asphalt Field Level I School**
- Richmond
  - 1/22 - 1/23/2013
- NOVA
  - 1/29 - 1/30/2013
- Fredericksburg
  - 2/19 - 2/20/2013
- Hampton Roads
  - 2/26 - 2/27/2013
- Salem
  - 3/12 - 3/13/2013
- Staunton
  - 4/2 - 4/3/2013

**Asphalt Field Level II School**
- Richmond
  - 1/23 - 1/24/2013
- NOVA
  - 1/30 - 1/31/2013
- Fredericksburg
  - 2/20 - 2/21/2013
- Hampton Roads
- Salem
  - 3/13 - 3/14/2013
- Staunton
  - 4/3 - 4/4/2013

**Central Mix Aggregate Plant School**
- Luck Stone - Boscobel Plant
  - Exam last day
- 1/15 - 1/17/2013

**Concrete Field School**
- NOVA
  - 1/23 - 1/24/2013
- Richmond
  - 2/20 - 2/21/2013
- Fredericksburg
  - 2/26 - 2/27/2013
- Staunton
  - 3/12 - 3/13/2013
- Hampton Roads
  - 3/26 - 3/27/2013
- Salem
  - 4/10 - 4/11/2013

**Concrete Plant School**
- Salem
  - 1/8 - 1/9/2013
- Richmond
  - 3/12 - 3/13/2013

**Pavement Marking School**
- NOVA
  - 1/8 - 1/9/2013
- Fredericksburg
  - 2/13 - 2/14/2013
- Hampton Roads
  - 3/12 - 3/13/2013
- Salem
  - 3/26 - 3/27/2013
- Richmond
  - 4/2 - 4/3/2013

**Slurry Surfacing School**
- Richmond
  - 2/22/2013
- Salem
  - 2/28/2013

**Soils & Aggregate Compaction School**
- Richmond
  - 1/8 - 1/11/2013
- Hampton Roads
  - 1/22 - 1/25/2013
- NOVA
  - 3/6 - 3/8/2013
- Fredericksburg
  - 4/2 - 4/5/2013
- Salem
  - 4/16 - 4/19/2013

**Surface Treatment School**
- Richmond
  - 2/22/2013
- Salem
  - 2/28/2013

**ALL CLASSES START AT 8:00 AM. EXCEPT SLURRY SURFACING WHICH STARTS AT 1:00 PM.**
