

TRANSPORTATION RELATED EMPLOYMENT OPPORTUNITIES

For over twenty years Moffitt International, Inc. has been a leader in the world of Executive Search. As a preferred provider of staffing services for the countries leading **Transportation Engineering** firms, MII has built a reputation of professionalism, integrity and speed of delivery.

We do more than merely match candidates to job openings. We work closely with our candidates to determine their exact qualifications and skills, and we interview our clients extensively to ensure that their needs and culture line up perfectly to those of our candidates.

Because of our history of performance, we are fortunate – **even in these very trying times** – to have a good number of active search assignments in the mid Atlantic Region.

We specialize in the following Highway related skill sets:

**Highway Design
Transportation Planning
Traffic Engineering
Bridge Design & Inspection
Environmental Engineering
Drainage Engineering
Surveying & Right of Way**

For a confidential conversation regarding your career transition potential, please call the leaders of our Engineering Group, either Alan Folger or John Daniels ...or email your resume to resumes@emoffitt.com for a quick response.
