**Project: I-66 Inside the Beltway-Westbound**  
**From: Rosslyn Tunnel**  
**To: Dulles Airport Access Highway**  
**County: Arlington and Fairfax Counties**

Dear Neighbor:

Last year the Idea-66 Feasibility Study recommended that interim improvements be made on Interstate 66 (I-66). In late March, the Virginia Department of Transportation will begin conducting a boundary survey of the right of way and property lines adjacent to I-66. This work will also include topographic survey to obtain ground elevations on westbound I-66. This may necessitate entering your property to gather property, utility and storm sewer data.

This survey work near to or on your property does not indicate that your property will be impacted by any potential interim improvements. The survey work is being undertaken for the purpose of verifying right of way, property lines, utility locations and ground elevations. Please note that all proposed interim improvements to I-66 westbound are anticipated to remain within the existing right-of-way.

If you have any knowledge of cemeteries, easements, or homeowner installed utilities that are not recorded in the County's public records or if you have knowledge of any particular items of interest that may affect the survey in your area, please contact one of the parties listed below.

The survey party is not in a position to answer your questions involving future plans or highway policies. If you have questions concerning the survey, please contact the following individuals below:

Ms. Theresa L. DeFore, P.E.  
Idea-66 Project Manager  
14685 Avion Parkway  
Chantilly, VA 20151  
(703) 383-2150

Mr. Leon E. Treutle, L.S.  
NOVA District Survey Manager  
14685 Avion Parkway  
Chantilly, VA 20151  
(703) 383-2188

For more information on Idea-66 please visit the study website at [www.idea66.com](http://www.idea66.com).

Cordially yours,

John D. Lynch, P.E.  
NOVA District Location and Design Engineer
