

Session 3 -- Overview of Virginia Traffic Impact Analysis (TIA) Regulations

The target audience is local government officials, VDOT's staff, and land development professionals who work with comprehensive plan updates, amendments, rezonings and site plans.

After completing this session, participants will be able to:

- Determine if a given land development proposal is subject to the 527 process, and if so, calculate associated fees
- List the parts of a complete application and identify when a scoping meeting should be held
- Identify the work flow, timeline, and appropriate VDOT contacts
- Define what constitutes a complete traffic impact analysis
- Describe the process for VDOT's review and recommendations
- Identify what needs to be in the public record
