Legend:
- Proposed Raised Median
- Proposed Pavement
- Pavement Demo
- New Signal
- Existing Signal

Final Conceptual Layout:
- Install Raised Median at the Short Street intersection to prohibit the Route 17 Eastbound and Westbound Left Turns and to allow the Short Street Northbound Right Turns only
- Install Raised Median between Short Street and Olde Forge Drive
- Add pavement for extending the I-95 Off-Ramp merge lane and Route 17 eastbound right lane drop at Olde Forge Drive
- Install sidewalk along south side of Route 17 from Short Street to Lendall Lane
Final Conceptual Layout:
- Install Raised Median between Short Street and Olde Forge Drive
- Add pavement for new Route 17 eastbound right lane drop at Olde Forge Drive
- Realign RV Parkway across Olde Forge Drive; add new traffic signal and pavement markings
- Install sidewalk along south side of Route 17 from Short Street to Lendall Lane
Refresh Existing Crosswalk Markings; Add Pedestrian Signals to New Crosswalks; Adjust Pedestrian Clearance Time

Convert Center Lane to Shared Thru/Left

Close 2 Entrances

Install Crosswalk and Stop Bar

Install Sidewalk Connection

Close Driveway

Final Conceptual Layout:
- Install sidewalk along south side of Route 17 from Olde Forge Drive to Lendall Lane
- Install Raised Median between Solomon Drive / Lendall Lane east to existing median
- Convert Solomon Drive southbound center lane to a shared Thru / Left and Adjust signal heads; Add pedestrian signal equipment and adjust pedestrian clearance timing
Final Conceptual Layout:
- Install Raised Median between Solomon Drive / Lendall Lane east to existing median, with a median break for the industrial site truck traffic
- Install Raised Median at Wyne Drive intersection
- Add right turn lane taper on Route 17 westbound at Wyne Drive
