Find out about plans to install a new traffic signal at the intersection of Blackburn Road and Rippon Boulevard.

In addition, the turn lanes on Rippon Boulevard that have not been in use since the intersection became a four-way stop will be restored as part of pavement resurfacing and restriping. The project will also include pedestrian improvements.

Pursuant to the National Environmental Policy Act (NEPA) and 23 CFR 771, a NEPA document in the form of a Programmatic Categorical Exclusion (PCE) will be prepared for this project under a Programmatic Agreement between VDOT and the Federal Highway Administration (FHWA). The PCE will include information about potential impacts to environmental resources within the project's vicinity. In accordance with 23 CFR 774.5, a Section 4(f) *de minimis* impact finding will also be requested from FHWA for minor use of Rippon Landing Neighborhood Park.

Stop by between 6:30 p.m. and 8 p.m. to view displays and learn more about the project and its preliminary design, as well as signal and non-signal options evaluated by the design team. Project staff will be available to answer your questions.
