The Virginia Department of Transportation (VDOT), in cooperation with Fairfax County, is conducting a multimodal corridor study for the Fairfax County Parkway (Route 286) from Route 7 (Leesburg Pike) to Route 1 (Richmond Highway). The Fairfax County Parkway portion of the study corridor is approximately 31 miles in length, while the Franconia-Springfield Parkway portion is 3.5 miles long. This project will assess short-term multimodal improvements, which can be implemented within the next five to ten years.

Stop by to learn more about the study, view displays and discuss your questions with VDOT and Fairfax County staff.

Give your oral or written comments by July 5, 2016 to Abi Lerner, Project Manager, VDOT Northern Virginia District, 4975 Alliance Drive, Fairfax, VA 22030. You may also e-mail comments to meeting_comments@vdot.virginia.gov. Please reference "Fairfax County Parkway/Franconia-Springfield Parkway Corridor Study" in the subject line for all correspondence.
