

# NEPA Documentation Concurrence Form

## Project Information

**Project Name:** Design/Build: RTE 15 & I66 HAYMARKET P&R LOT **Federal Project #:** STP-5A01(767)

**Project Number:** PR15-076-236, C501, D665, P101, R201 **Project Type:** Construction

**UPC:** 109486 **Charge Number:**

**Route Number:** 15 **Route Type:** Primary

**Project Limit--From:** Ramp B @ I66 and Rte 15 **To:** Rte 15 and Heathcote Blvd

**Additional Project Description:** The scope of work for this project includes construction of a Park and Ride Lot adjacently northeast of the interchange at Route 15 and Interstate 66 (I-66) Ramp B in Haymarket, Virginia as part of the Transform 66 Congestion Mitigation Transportation Management Plan (TMP), to accommodate passenger vehicles, buses, pedestrians, and bicyclists. Access to the commuter lot would be provided via an access road from Heathcote Boulevard through a planned commercial development.

**Purpose And Need:** The need for commuter parking spaces in the Haymarket area was identified in a 2009 I-66 Transit /Traffic Demand Management (TDM) study in support of the larger Transform 66 Outside the Beltway project. The lot is intended to provide a staging area for carpools using the I-66 high-occupancy vehicle (HOV) lanes, as well as future transit services in the area, resulting in time savings for carpools and transit users, and congestion relief on I-66.

District:	City/County:	Residency:
Northern Virginia	Prince William	Manassas

**Suggested Level of NEPA Document:** CE: d04

**Description of CE Category:** Transportation corridor fringe parking facilities.

**Comments:** The project is programmed in the STIP grouping for Construction: Safety/ITS/Operational Improvements, demonstrating fiscal constraint.

We concur with the suggested level of NEPA document.
