

Arlington Boulevard (Route 50) Interchange Improvements Courthouse Road and 10th Street

Pardon Our Dust Meeting

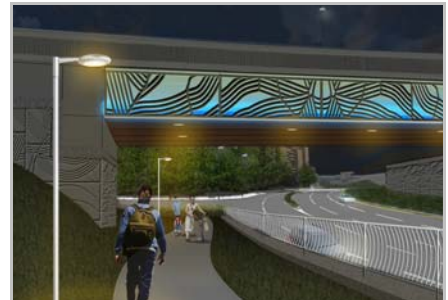

- WHAT:** This meeting will introduce the project team, provide a project overview, including traffic impacts and schedule, and answer any questions.
- WHEN:** **Tuesday, May 3, 2011**
6 p.m. to 8 p.m.
- WHO:** VDOT's project team will be on hand to answer your questions.
- WHERE:** Arlington County Board Room
2100 Clarendon Boulevard, Third Floor
Arlington, VA 22201

Westbound Rt. 50 at 10th St.

Westbound Rt. 50 at Courthouse Rd.

Shared-use path under the 10th St. bridge.

This \$39 million project includes rebuilding the existing bridges and adding dedicated acceleration/deceleration lanes separated from the main roadway. These new lanes will improve traffic flow by managing the merge of entering and exiting vehicles. Traffic impacts begin mid-May, and the entire project is expected to be complete in fall 2013.

Additional improvements and features include:

- Signalized intersections and ramps to improve access from Route 50 to 10th Street and Courthouse Road, and from Fairfax Drive to Courthouse Road
- Bicycle trails on eastbound Rt. 50 from Pershing Drive to Rolfe Street, and relocating/extending the westbound trail under the 10th Street Bridge
- Custom-designed concrete panels and LED back-illuminated, patterned metal grillwork designed by artist Vicki Scuri, working with the Arlington Cultural Affairs Public Art program.

Please join us to learn more about

- How delays will be minimized during construction
- Details on planned detours and closures
- How to stay informed during construction
