

## **Public Hearing Comment Summary**

### **Route 611(Telegraph Road) Improvements**

**From: Route 613 (South Van Dorn Street**

**To: Route 633 (South Kings Highway)**

**VDOT project # 0611-029-891, P101, R201, C501 (UPC 96509)**

On September 23, 2010, a Public Hearing was held at Hayfield Secondary School for the referenced road improvement project. Twenty-eight citizens signed in on the attendance sheet, and eleven written or transcribed comments were received. A summary of those comments is appended below:

#### **Do you support the project, Yes or No?**

7 - Supported project

0 – Did not support project

#### **General design comments**

- 2 – Reduce design speed to more closely match posted speed
- 2 – Provide bike & pedestrian accommodations during construction
- 2 – In favor of on-road bike lanes
- 1 – Against on-road bike lanes
- 1 – Provide a median break/crossover at Sheridonna Lane
- 1 – Provide for paving and proper drainage on Sheridonna Lane
- 1 – Make on-road bike lanes 5' wide
- 1 – Provide wider shared use path at & near sharp bends in path
- 1 – Provide for a smooth transition between culvert structure and pavement
- 1 – Provide lighting at intersections and along shared use path
- 1 – Existing commercial entrances near S. Kings Hwy should be reconfigured for increased safety

#### **Other comments**

- 1 – Provide for permanent downstream environmental monitoring
- 1 – Replant project site with native species
- 1 – Additional refinement of signage for bike lanes & shared use path is needed
- 1 – Signal loops should be designed to detect bicycles
- 1 – All new signals in project areas should be synchronized
