Welcome to the Bowers Hill Interchange Improvements Study Environmental Assessment Location Public Hearing.

The Virginia Department of Transportation (VDOT), in coordination with the Federal Highway Administration (FHWA), has prepared an Environmental Assessment (EA) under the National Environmental Policy Act (NEPA) for the Bowers Hill Interchange Improvements Study.

Purpose of Today's Meeting:

- Share the findings of the EA that has been prepared to analyze the potential social, economic, and environmental impacts associated with the alternatives analyzed in the Bowers Hill Interchange Improvements Study.
- Answer questions and discuss the study.
- Obtain comments on the study and the results of the EA.

The Study Area has been developed as the area surrounding the roadways that comprise the Bowers Hill Interchange. The Study Area is large enough to encompass potential interchange improvement alternatives; this does not imply that impacts would occur to the entirety of the Study Area.
