

495 Southside ExpressLanes

Learn about and provide input on the Virginia Department of Transportation's (VDOT) 11-mile proposed extension of the I-495 Express Lanes from the Springfield interchange (I-95/I-395/I-495) in Fairfax County, Virginia, across the Woodrow Wilson Bridge, to the MD 210 interchange in Prince George's County, Maryland.

The goals and objectives of this I-495 Southside Express Lanes Study (495 Southside Study) are to evaluate transportation improvements that extend the Express Lanes system on I-495 (Capital Beltway), provide additional travel choices, reduce congestion, improve travel reliability, improve safety, and provide consistency with local and regional plans.

VDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need special assistance for persons with disabilities or limited English proficiency, contact VDOT Civil Rights at 703-259-1775.

If you do not have access to the internet and would like to review printed copies of information about the 495 Southside Study, or if you would like to meet in a smaller group with a VDOT representative to discuss the study, please contact VDOT at 703-691-6715 or 495southsideexpresslanes@vdot.virginia.gov.
