JAMESTOWN-SCOTLAND FERRY SUSPENDS SERVICE DUE TO HIGH WIND CONDITIONS
Ferry motorists must use alternate routes

SURRY COUNTY – As of Friday, Dec. 23 at noon, operations are currently suspended at the Jamestown-Scotland Ferry due to high winds associated with the winter storm.

High winds prevent the safe loading of vehicles from the docks and transit across the James River. Service will be restored as soon as winds subside. Service interruptions could continue to occur through the night of Dec. 23.

Motorists must use alternate routes, such as the James River Bridge (Route 17) and the Monitor-Merrimac Memorial Bridge-Tunnel (I-664) until further notice.

Alternate route from the Surry boarding location:
- Take Route 10 to Route 258 to the James River Bridge (Route 17);
- Follow signs for Route 64 West. Exit onto Route 199 toward Williamsburg; and,
- Follow to Route 31 (Jamestown Road).

Alternate route from the Jamestown boarding location:
- Take Route 31 to Route 199;
- Make a right onto Route 199;
- Merge onto Route 64 east;
- Follow to the James River Bridge exit;
- After traveling over the bridge, make a right onto Route 258, a right onto Route 10; and,
- Follow Route 10 to the Town of Surry traffic signal.

For additional travel alerts, motorists are encouraged to follow @VaDOTHR on Twitter, visit 511virginia.org, call 511, or download the free Virginia 511 mobile app.
Call the ferry hotline at 1-800-VA-FERRY (1-800-823-3779) for updated information to determine if an alternate route is needed.

Motorists can also view the traffic queues approximately one-half mile from the boarding

locations in real-time on the VDOT 511 cameras at www.jsferry.com.
