TEMPORARY TRAFFIC SHIFTS SCHEDULED FOR ROUTE 460 BRIDGE REHABILITATION PROJECT

New traffic patterns on Route 460 over Blackwater River beginning as early as Nov. 14

ISLE OF WIGHT COUNTY — Starting as early as Nov. 14, motorists can expect a series of traffic shifts and intermittent stoppages on Route 460 (Windsor Boulevard/General Mahone Boulevard) at the bridge over Blackwater River from 10 a.m., Nov. 14 through 4 p.m., Nov. 15 as work continues to move toward completion for the bridge rehabilitation project in Isle of Wight County.

Flagging operations will be in effect during this work period to allow for the installation of permanent striping and the eventual restoration of traffic to the permanent final configuration. Traffic stoppages are not anticipated to be more than 15 minutes at a time.

Motorists are asked to use caution as workers and equipment will be entering and exiting the work zone during this time. A single, reduced-width lane of traffic will be maintained in each direction on Route 460 until project completion. Access will continue to be maintained for local businesses and residences.

The temporary road configuration includes the use of barriers and markers to delineate lanes. Wide loads exceeding 10 feet 6 inches are advised to use alternate routes.

The suggested alternate route for restricted vehicles is as follows:

To Route 460 west:

Turn left on Route 258;

Take Route 58 Business to Route 35;

Turn right on Route 616;

and Turn left on Route 460.

To Route 460 east:

Turn right Route 616;

Turn left on Route 35;

Follow Route 58 to Route 258;

and Turn right on Route 460.

This work is dependent upon weather conditions; therefore, the schedule and duration of the work are subject to change.

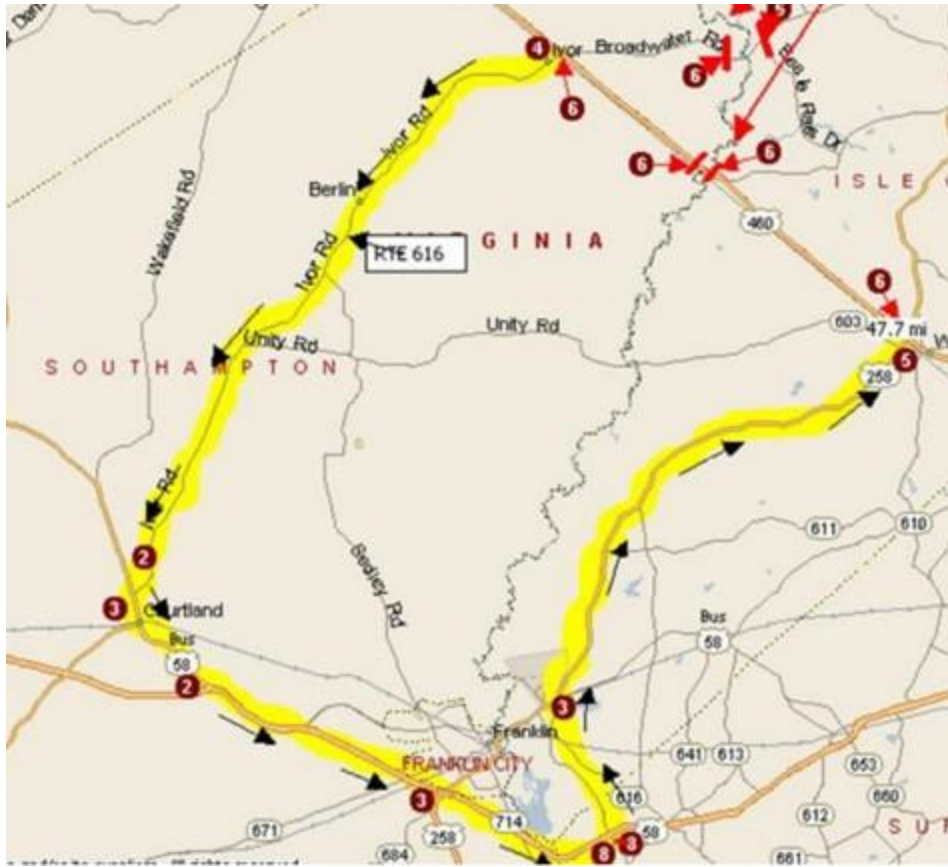

For more information on the Route 460 Project over Blackwater River in Isle of Wight County please visit the project website:
