The Virginia Department of Transportation in coordination with the Town of Dumfries will host a design public hearing on plans to widen about two miles of Fraley Boulevard (Route 1) from two lanes to six between Brady's Hill Road and Route 234 (Dumfries Road) in order to increase capacity, reduce congestion and improve safety and accessibility.

This project will add capacity to Fraley Boulevard so it can be converted to three lanes of traffic in each direction with a raised median. The project will also construct a shared-use path for bicyclists and pedestrians along one side of the new Fraley Boulevard alignment and a sidewalk along the other side. Main Street will be modified for local traffic. This project is partially financed with state, federal and Northern Virginia Transportation Authority funds.

In compliance with the National Environmental Policy Act (NEPA) and 23 CFR Part 771, the Federal Highway Administration (FHWA) issued a Finding of No Significant Impact for the Environmental Assessment (EA) prepared for the Route 1 Improvements – Project A on March 19, 2007. The EA study limits included the current Fraley Boulevard widening project. Pursuant to 23 CFR 771.129(c) and in consultation with FHWA, a NEPA Reevaluation of the EA is currently under preparation and will be made publicly available for review under a separate public notice.

Stop by between 6:30 p.m. and 8:30 p.m. to view displays and learn more about the project and its preliminary design. A presentation will begin at 7 p.m. Project staff will be available to answer your questions.
