Find out about plans to replace the Piggott Bottom Road (Route 711) bridge over Branch of Catoctin Creek to improve safety and operations. The bridge was built in 1932 and rehabilitated in 1992. The proposed bridge will be slightly longer and higher than the current one, allowing an increased opening beneath the bridge to better withstand flooding.

The meeting will be held as a **virtual/online meeting**. Information for accessing and participating in the virtual meeting is available at **www.virginiadot.org/PiggottBottom**. The project team will make a short presentation beginning at 6:30 p.m. and answer questions for about an hour after the presentation.
